## Просто часы

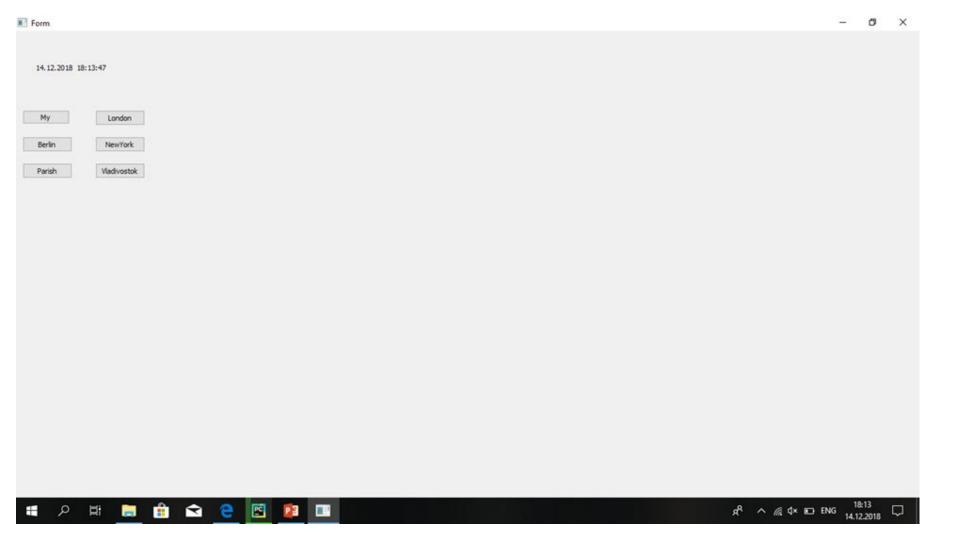

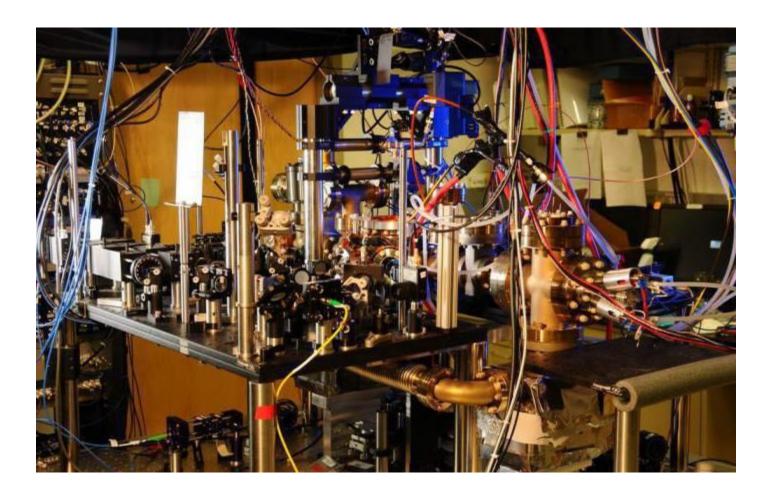

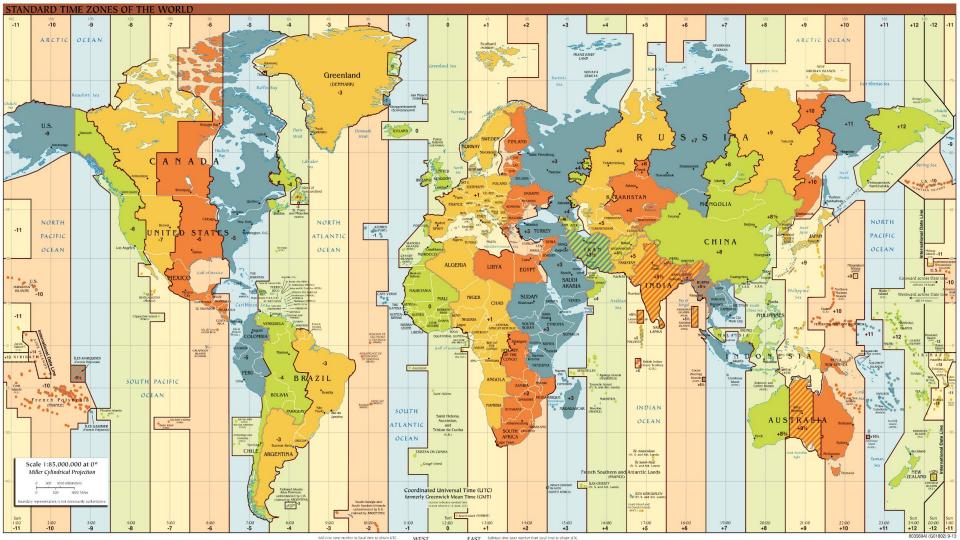

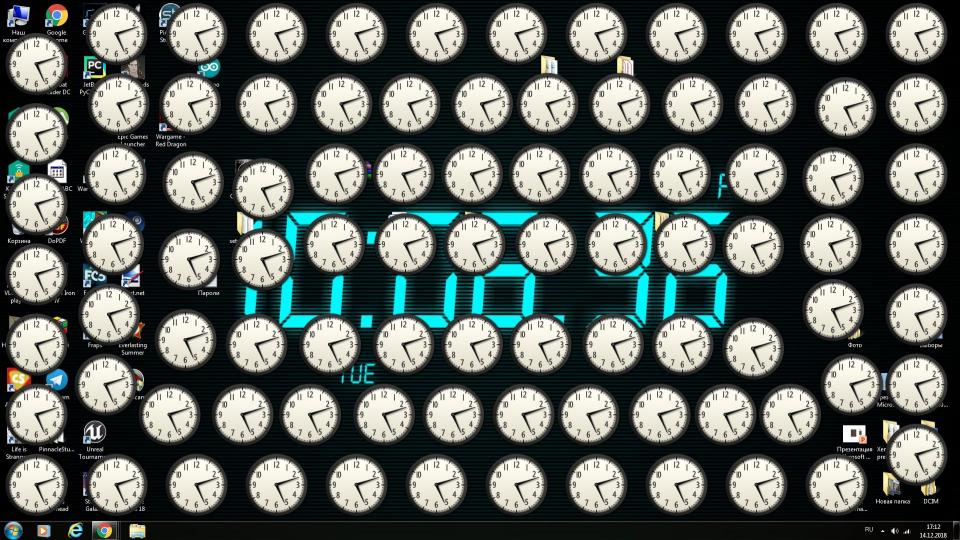

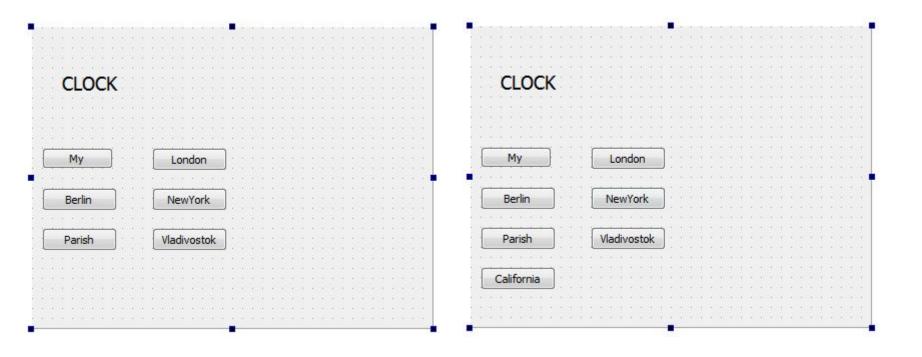

- 1. Скачать Python
- 2. Скачать библиотеку
- 3. Скачать программу

## 1. Скачать QT Creator

## 2. Добавить кнопку с новым городом

## 3. Добавить название нового города в программе

```
# self.*HasвaниеГорода*.clicked.connect(self.time*НasвaниеГорода*)
      а = *Разница во времени с вашим городом*
                                       now.minute, now.second))
self.California.clicked.connect(self.timeCalifornia)
     def timeCalifornia(self):
         global a
        a = -11
        now = datetime.now() + timedelta(hours=a)
        self.cr.setText(
             "{}.{}.{} {}:{}".format(now.day, now.month, now.year, now.hour,
                                         now.minute, now.second))
```
